

DecodeLabs — Data Analytics Project 1

Data Cleaning & Preparation — Change Log

Change ID	Field	What was changed	Why / Impact	Status	Records
CR001	CouponCode	Blank/null values → NO COUPON	Keeps categorical values complete without assigning an unverified response.	Resolved	309
CR002	OrderID	Checked for duplicate OrderIDs; none found	Unique identifiers must remain truly unique.	Verified	0
CR003	Date	Normalized display to YYYY-MM-DD	Ensures a consistent date format.	Resolved	0
CR004	UnitPrice / TotalPrice	Standardized to 2 decimal places	Ensures consistent monetary precision.	Resolved	0
CR005	Text fields	Trimmed whitespace and standardized controlled labels	Improves consistency for filtering/grouping.	Resolved	0

Final validation: 1,200 rows retained; 0 missing values; 0 duplicate OrderIDs; dates standardized; monetary fields displayed to 2 decimals.
